COXEY INTENDS TO SUE

Action Will Be Brought Against Pittsburgh Police—Army Arrested.
"General" Jacob S. Coxe's army of the commonwealth, consisting at present of twelve regulars, had a hard time of it in Pittsburgh. They weren't allowed to leave the doorstep of the Union Restaurant mission, where they spent Saturday night, until late in the afternoon. And only then permission for the men to take a walk about the city came when "General" Coxe had engaged a lawyer.
As a result of the arrest of his men on Saturday, "General" Coxe says he will probably enter several suits against the authorities who issued orders for the arrest.

Wires Cut and Train Derailed.
Detectives and railroad officials are making an investigation to ascertain the parties who cut down the telegraph and telephone wires along the Monongahela division of the Pennsylvania railroad at Grindstone, near Uniontown, Pa. The wires were cut down for a distance of 100 feet. An engine and two cars of a freight train also were derailed at the same place.

FEDERALS BURN NEUVO LAREDO

Mexican City Across Rio Grande Is Destroyed

AMERICAN TROOPS FIRED ON

Many Mexicans Are Killed When Rifle Shots Are Returned—Attempt to Dynamite and Destroy Bridge Fails.

With at least eleven Mexicans killed and more than a score wounded, with destruction by dynamite evident in every section, and with a black pall of smoke, heightened by flames in countless places, Nuevo Laredo, Mex., just across the Rio Grande from Laredo, Tex., presents a spectacle of desolation and ruin.

Dynamite and the torch succeeded each other in their destructive work. The work of destruction was made more certain by liberal use of kerosene.

An attempt to dynamite the Mexican end of the international railroad bridge was prevented by the accurate aim of the men behind the guns on the American side.

When the federals returned after evacuating the town they found the place deserted and then they began the work of destroying. They fired across the Rio Grande at American patrols and the United States troops returned the fire and machine guns on this side were set in motion. Many on the Mexican side were killed.

Among the buildings destroyed were the United States consulate, the municipal building, the flour mill, one of the largest in this section of the southwest; the postoffice, theater and the customs house.

Before dashing south the federal troops prepared for a general conflagration. The fires, which were lighted at the moment of departure, assumed giant proportions within less than five minutes. Many of the houses were of stone or adobe and under ordinary circumstances not easily burned, but oil had been used, causing every house fired to burn rapidly.

The first signal which drew the attention of the people of Laredo to the city across the river was the sound of rifle fire as the train was pulling out. The Mexicans fired at the American soldiers at Fort McIntosh and the fire was returned at once by the Americans.

It was reported that three persons had been killed by the Mexicans' fire, but it was impossible to verify this report immediately.

With the Ninth regiment of infantry, three troops, J, K and J, of the Fourteenth cavalry and Battery A of the Third field artillery at Laredo officers said there was no danger.

GOV. AMMONS DENOUNCED

Denver Citizens Accuse Him of Being Accessory to Murder.

A crowd of men and women, 1,000 to 6,000 in number, composed partly of Denver's most prominent citizens, stood in a pouring rain in front of the capitol building and heard the state administration denounced for permitting the murders in the southern coal strike district.
Resolutions were adopted condemning Governor Ammons as an accessory to the murder of babies and demanding his impeachment at a special session of the legislature.

News from Trinidad tells of the tenseness of the situation there. Under a temporary truce the strikers are entrenched and ready to battle the soldiers at any moment.

At Trinidad 102 armed deputy sheriffs with a gatling gun are entrenched in the courthouse. This precaution was taken because it was understood Judge Muzzer of the state supreme court and others of a committee appointed by the governor to investigate conditions were about to arrive.

The truce lasts only until these men get there from Denver and announce what they will try to accomplish.

T. Keep Smiling Old Top, There Is No Shortage of Vinegar. T. A. P.

On Sunday morning take your wife and the "kids" and go to church, and become part of the active, hustling, live wire citizens of the town. It's our business to have you dressed properly for the occasion. We think a great deal of our strictly wool suits for men at \$18.00. We are also proud of our suits at \$10.00, and we are simply delighted with our suits at \$20.00 and \$25.00. There's lots of good in the worst of us. Suppose we try putting on a "good front" and then develop the goodness from the inside out. P. S.—If you are troubled about clothes, bring your troubles to us. We have a "Worry" Department that is in perfect running order.

Important Suit News.

Invoices received in Saturday night mail show shipment of suits by a leading New York suit maker which we believe is destined to prove the most extraordinary thing in a suit way that this Second Floor Garment Section has witnessed this season. The prices at which we bought these suits will enable us to price them at

\$16.50, \$18.50, \$19.50 and \$22.50.

And we can promise with every degree of assurance that these are in every way exceptional suits.

We are tempted to put it stronger than that but we'll allow the suits to speak for themselves.

Die geeignete Auswahl von Brillen.

Es sind mehr Augen durch unrichtiges Anpassen von Gläsern als durch sonst etwas ruinirt worden. Hat das Auge mangelhafte Refraction, so muß das Bild aller Gegenstände nach einem Focus auf der Netzhaut durch außerordentlich Tätigkeit des musculus ciliaris gebracht, oder das Bild unvollkommen geformt und das Refraktat verunstaltet. Sehen mit Schwäche und Schmerz um Augen und Stirn. Dies verursacht Congestionen, welche sich durch schwere Augenlider, Rote, Juden oder Brennen, ein Gefühl, als sei Schmerz im Auge, and häufigen Schmerz, verbunden mit Empfindlichkeit gegen Licht zeigen. Je schwächer das Auge, desto fühlbarer obige Symptome. Augen mögen physikalisch stark und gleichwohl fehschwach sein und umgekehrt.

Um durch Gebrauch einer Brille die Mängel aufzuheben, wird die Tätigkeit der Muskeln geübert, und wenn der Schaden vorüber oder durch zu stark oder zu schwache Gläser nicht aufgehoben ist, so sind die Ursachen der Congestio oder vermehrt statt vermindert. Beseitigt gemessene Refraction, muß irgend ein Handelsglas den Schaden vermehren. Jeder Schwachichtige sollte sich sorgfältig wissenschaftlich untersuchen und Brillen anpassen lassen, ehe er sie in Gebrauch nimmt. In besondern Fällen werden Gläser auf Bestellung geschliffen, in jedem Falle garantiert.
